

Please carefully read the following **BEFORE** registering for a driving course.

If one of the following health issues applies to you, we recommend that you **call** the Société de l'assurance automobile du Québec before registering for a driving course. You may have to undergo a medical or eye examination before being eligible to obtain a driver's licence.

**You are not required to return this checklist to us.**

To discuss your health condition, you can call us toll-free from Monday to Friday at 1-800-361-7620.

- I have an eye disease or disorder (cataracts, glaucoma, retinopathy, macular degeneration, double vision, loss of an eye or no vision in one eye, etc.).  
*To obtain your learner's licence, you will have to pass a vision test in one of our service centres.*
- I have bilateral hearing loss with or without a hearing aid.
- I suffer from severe vertigo.
- I have a heart condition (infarction, angina, palpitations, defibrillator, transplant, etc.) that restricts activities such as walking.
- I experience excessive sleepiness related to a sleep disorder (sleep apnea, narcolepsy, etc.).
- I have had significantly limited mobility for several months in my neck, hands or feet (amputation, permanent immobility, polyarthritis, etc.).
- I have a serious behavioural problem or psychiatric disorder (schizophrenia, bipolar disorder, recurrent major depression, etc.).
- I have a substance use disorder (alcohol, drugs or other substances).
- I have a cognitive impairment (dementia, Alzheimer's disease, psychomotor retardation, cognitive impairment, etc.).
- I have had epileptic seizures.
- I have a neurological condition (stroke, head trauma, paralysis, Parkinson's disease, multiple sclerosis, autism spectrum disorder, etc.).
- I have experienced loss of consciousness, syncope or non-epileptic convulsions in the past 12 months.
- I have insulin-treated diabetes.
- I have a lung disease (emphysema, chronic bronchitis, any condition requiring the use of oxygen, etc.) that restricts activities such as walking.
- I need home assistance to carry out daily activities (eating, hygiene, dressing, moving about, etc.).
- I take medication that causes daytime drowsiness (sleeping pills, anti-anxiety medication, painkillers, etc.).
